1. Made from 100% cotton, pure white and soft, whiteness $\geq 80A$
2. Could be with or without X-ray detectable thread
3. No toxic, no stimulation, no sensitization
4. Strictly conforming to BP, EUP, USP standards

Gauze Swabs

Gauze Swabs are made of 100% cotton, and are all folded by machine in amicrobic environment. absorbndncy, so it is perfect for absorbing blood and exudates.

Gauze/Cotton Ball

1. **Material:** 100% cotton.
2. **Color:** white.
3. **Diameter:** 10mm, 15mm, 20mm, 30mm, 40mm...
4. With or without X-ray detectable thread.
5. OEM services & Small Orders are available.
6. Sterilized or non-sterile.
7. with or without elastic ring.

Gauze Bandage

The product can quickly absorb water of exudates from wound surface to form viscous gel. It is effective in immediate hemostasis, protecting wound site and accelerating healing for trauma and post operational wound.

Cosmetic Cotton Pad

	1	Clean, whiteness > 80 degree, absorbency < 10 seconds, no mildew and yellow spot, no harmful residues.
	2	Medical degreasing process
	3	Be treated with high temperature and hygienically.
4	It is suitable for make-up cleansing and nail cleaning, discharge makeup.	
5	Packing: packing 80pcs/bag 96bags/carton 37 × 33 × 48cm (suitable for 0.4g/pc)	

WOODEN PRODUCTS (TONGUE DEPRESSOR, SWABS, CERVICAL SPATULA)

Wooden Tongue Depressor

Size: 150*18*1.6mm for adult, 140*18*1.6mm for children
 Material high quality China birch wooden
 Packing Individual Pack
 Certificate CE/ISO13485
 Function Medical Material

Wooden Cotton Swabs

Characteristics

1. Extremely low dust emission.
2. Environmentally friendly paper and wooden poles.
3. High efficiency absorbent cotton head.
4. Customized different sizes according to customers' specifications.

Cervical Spatula

Product Show

* It is mainly used for gynecological, cervical cancer and venereal disease exam (eg, AIDS, Syphilis, Gonorrhea and Gynecological-related diseases) and it is essential medical equipment. It is widely used in developed countries.

* This gynecological text is painless and quick and very hygienic by disposable use. Also it is certificated the safety which is harmless to human body with strict clinical demonstration.

BAG

Feeding Bag

Feeding Bag

1. Medical grade PVC material, non-toxic
2. Gravity bag or pump bag
3. Rigid neck for easy filling and handling
4. With plug cap and strong, dependable hanging ring
5. Easy-to read graduations and easy-view translucent bag
6. Bottom exit port allows complete drainage
7. Specification 500ml, 1000ml, 1200ml, 1500ml

Urine Bag

Urine Bag

Material Medical Grade PVC
 Capacity 1000ml, 1500ml, 2000ml, Customizable
 Packing PE package
 Usage Collection urine

Drainage Bag For Dialysis

Capacity: 2000ml

Material: PVC, PC

Scope of application: for the drainage collected waste liquid of the peritoneal dialysis

MEDICAL DRESSING SURGICAL DRAPE

1. Size: 40x60cm, 50x70cm, 60x80cm, 90x120cm or customized
2. Materials: 40-60gsm SMS, SMMS, PE coated with absorbent materials or as customer's request.
3. With or without holes
4. With or without adhesive around the hole/hole
5. It absorbs fluids, alcohol, and blood quickly, widely used for operations in hospital
6. It avoids cross infection during the operations
7. Packing: 1pcs/peel bag, 200peel bags/ctn Package: sterile single packed or in bulk

- Material:** 1ply/2ply/3ply wood pulp/PP/PP+PE/PE+Paper, comfortable, hygienic and cost effective bedding
- Gram weight:** 20-60gsm
- Color:** white blue green or as required
- Style:** elastic in two ends , sewing in the four corner, folding flat bed sheet roll or bed sheet roll, to accommodate a variety of size of the bed

- Product Feature:**
1. The top layer is a high quality non-woven fabric, which is soft to the touch. It will keep the pad clean and dry.
 2. The absorbing layer is composed of fuzz pulp coated by toilet paper and high polymer-absorbing resin. High polymer-absorbing resin can absorb liquid 150 times more than its weight in liquid.
 3. The bottom film is made of a high quality flow casting film, which will never leak water; it will effectively prevent the liquid from spilling.
 4. It can absorb quickly, keeping the area dry and free from odor.

FIRST-AID PRODUCTS

Size: 5.0L; 4.0L; 3.0L; 2.0L; 1.0L 0.5L
(Standard 22mm Interface)

Product Usage

1. Widely used on anesthesia machine.
 2. Used for anesthesia and oxygen of patients.
- Applicable Scope Department of anesthesiology; Operating room; ICU; etc

Specifications

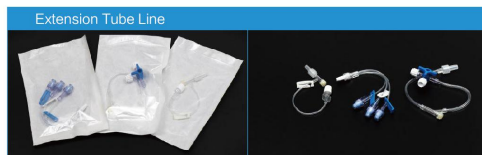

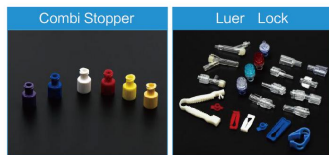

1. Be made from medical grade silicon.
2. Be more comfortable than PVC face mask.
3. International standard connector.
4. Different size for children and adult.
5. We can supply extra large size 6#

In 100% pure liquid silicon material:

- Standard set:** 1 mask, 1 resuscitator bag, 1 valve set, 1 oxygen reservior bag, 1 oxygen in 2meters long
- Resuscitator specifications:** 1400ml for adult, 550ml for child, and 350ml for infant
- Oxygen reservior specifications:** 2900ml for adult, 2900ml for child, and 810ml for infant

DISPOSABLE MEDICAL PLASTIC CONNECTOR

MEDICAL INSTRUMENTS

The disposable trocar is mainly used to puncture the abdominal wall of human body and establish the working channel of abdominal surgery during laparoscopy and surgery.

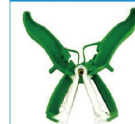

The LongmedTM Endo Fascial Closure System is designed to minimize complications and costs associated with post-operative port-site herniation by providing safety, uniform closure.

Used for male circumcision in Urology Foreskin Stapler Product Characteristics The sharp blade can reduce the damage of wound and perform a nice cutting Big cartridge volume to hold more tissue Less pain and fewer complications Time-efficient and safe male circumcision technique Umbilical Cord Clamp

Umbilical Cord Clamp

Specifications:

1. Disposable umbilical cord clamps are shaped up after injection molding by plastic special tablet material.
2. It adopt the medical materials which won't have bad effect on children such as reaction or sensitization after strictly inspection.
3. Umbilical Cord Clamps mainly used in clipping umbilical when woman is having baby.

Foley Catheter

Product functions and features

1. Made from medical class silicone, transparent, soft and smooth
2. Radio opaque line through the tube body for X-ray Visualisation
3. High volume balloon make sure the catheter can not drop from the urethra
4. Be used for short and long-term urination during the surgical procedures
5. Can stay in the body for a very long time

Waterproof Cover Cast

Key features:

1. The best waterproof cast or bandage protector to keep the wound on the hand or PICC dry and clean when take a shower or bath. The protector is 100% waterproof, sealed by neoprene, no worries to shower or even do outdoor activities.

Available in most common blade sizes.
Can be used as a part of many procedure trays, kits and packs
WARNING: Scalpel blades are extremely sharp. Always hold the back of the blade. Never force the blade.

Thermometer

1. One second measurement, simple and convenient;
2. 32 sets of memory data;
3. Large screen backlight display;
4. Safe and practical, long service life;
5. Three colors change, the fever will show red;
6. Advanced probe, accurate measurement;
7. Temperature and body temperature measurement one-click conversion;
8. Celsius and Fahrenheit convertible with adjustable accuracy;

Disinfection lamp

1. Patented close&open design
2. H type germicidal UV lamp, higher UV output
3. 99% anti-bacterial rate
4. People can share same room with machine, the side gates close and air cycle start automatically.
5. Keep air cycle to get fully air sterilization
6. More power with 3 fan speeds
7. Voice guide to remind you the machine working status
8. 30 seconds delay to start, to ensure people leave safely

Surgical Wound Protector

It is applicable in expansion small incision or minimally invasive incision filed, to prevent incision injury and reduce.

Disposable Laryngeal Mask

Disposable Laryngeal Mask
Single Use Disposable PVC Laryngeal Mask
Medical grade PVC with good biocompatibility
No epiglottis bars for easy insertion of fiber-optic scope, introducers and suction catheters
Available with DEHP FREE
Available with CE, ISO, FDA certificates.

Medical suture product

Medical Suture

Material: Available

Color: Blue/Black

Suture USP size: 2#-5/0

Packing details: 12pcs/box, 50boxes/carton

Skin Stapler

LAB CONSUMABLE

Glass Test Tubes

Our Doris test tubes are made from high transparent medical grade glass material. We have a complete sizes of test tubes, from 10*75mm to 20*150mm.

1. The color of glass test tube is clear, the glass material has low borosilicate glass, neutral borosilicate glass, high borosilicate glass and soda lime glass.
2. The diameter of test tube is 6mm-40mm, the length can be from 50mm to 2000mm.
3. The bottom can be flat or rounded.
4. We can also provide printing.

Color	Clear
Material	Borosilicate glass
Size	10*75, 16*100, 25*150 or Customized
Bottom Shape	Round or Flat bottom
Surface treatment	Printing can be provided

Microscope Slide

Our microscope slides support random end-user operations at any preferable sites.

All the our microscope slides are optimally pre-cleaned and ready-to-use, considerably helping improve the tiring and strict laboratory workflow efficiencies.

- Dimensions: 25.0mm × 75.0mm × 1.1mm. Optimally pre-cleaned, ready to use
- Markable with conventional labeling system, unsupportable for any direct-to-slide printing or marking
- Microscope slides with beveled edges are highly recommended for insuring optimized safety during manual operations.
